- Albert Einstein
  - He really loved numbers
  - Even though that was illegal his teachers still weren't on his side
  - He didn't want his family to knew so he got a Doctor who said Albert was ill of home sick
  - He was expelled
  - When he was a baby he was fat and had a small head
  - He was made fun of by his class mates because he was a Jew
  - He never forgot when he rode a beam of light
  - He read alout
  - He was the only Jew in his school
  - He was a guineans
  - He
  - He was the smartest man in his time if not all time
  - They said that because he talked slow
  - His teachers said he would get nowhere in life
  - His teachers said he was dumb in his face
  - He made a14 floor card tower
  - His head always appeared sour on the back
  - E=M C 2
  - Energy= Mass and the speed of light squared
  - He was smart but he had a rather small brain
  - He stopped a war with the atomic bomb
  - He asked many questions
  - Once he was riding his bicycle and he saw a beam of light and he tried to ride it
  - Uranium was in the Atomic bomb
  - Protons
  - Neutrons
  - These small things are called atoms
  - Uranium
  - Do you notice that the word atom is in the atomic bomb???
  - He loved elements and math
  - I don't see how he had a small brain cause he was so smart
  - Electrons
  - Albert Einstein was awesome!!!!!
  - He also liked compasses
  - He predicted that everything was made of small things
  - Atoms are made of:
  - None believed him but he had great proof so finally they did
  - He
  - He figured out there are mysterys in the world
  - Alberts father gave him a compass
  - That's why he was how he was
  - He liked ice cream
  - Yum Yum
  - 3 scoops
  - He didn't say a word until he was three and then he hardly said a word
